## WHO ENCOURAGES WHO IN NURSING?

### Contradictions

"The more we put faith in reason and its declared representatives, the more irrational our world became.

Sane political leaders contemplated the mutual destruction of their societies; greater wealth led to greater dissatisfaction; faster communications which should have made life easier made it harder, because suddenly we expected everything to happen instantly; more efficient food production led to poorer health and the list can go on and on.

It has something to teach us as we enter a new century of genetic modification, artificial intelligence and nanotechnology.

It's a cautionary tale about the most fundamental hum of human tragedies."

Pp295 Moon Dust by Andrew Smith Bloomsbury2005

=====

Encouragement sent to one Nurse can be a powerful means of encouraging another:

Dear

Thinking of you and sending good wishes.

In the words of an old Gaelic prayer - May God make safe to you each step

May God open to you each door

May God make clear to you each road

May God enfold you in loving arms.

=====

Indian Proverb

*"When you pray you must move your feet."*

The Book of James in the New Testament is a well proven and outstanding guide to help us live this Proverb effectively.

Faith and work are mutually exclusive essential ingredients of Good Nursing.

=====

**The Culture of Corruption** no Nurse can be proud of his/her Nation or Profession that is controlled by a ‘Culture of Corruption’.

**‘Rooting out’**

A culture of corruption, which by its very nature spawns a ‘Culture of Isolation’, is the unpleasant task but real responsibility, of every Nurse.

To make a dysfunctional system functional requires us to share both:

- *Our fears and concerns as well as*
- *Our victories, when this evil is overcome even in small ways.*

**Key Words** that will help Nurses develop and grow out of the present invidious, difficult situation:

*Spirit, truth, balance, theology, Community culture and excellence.*

Theology is the study of God, not of religion.

It attempts to discern the whole counsel of God on a given subject – in our case – Nursing.

What does the text say?

What did the text mean when it was written?

What am I going to do about it today?

Nurses are hungry today so let us sit together and feed each other.

**A Blessed Promise Found in John 14:26**

**Jesus gives to each Nurse:**

*“The Helper, the Holy Spirit, whom the Father will send in My name, He will teach you all things, and bring to your remembrance all things that I say to you.”*

**Totalitarianism** is a threatening world force. The powerfully negative impact has already placed Nursing and the health services in an invidious and hopeless situation.

Nurses must understand in order to be united to strengthen our democracy through our daily input into Nursing Services, Education and Research.

Men cannot judge justly when they are in a state of war.

**Nurses can be strengthened to strengthen**

**HOW?**

By waiting in the presence of the Lord Jesus Christ to receive the Wisdom of God and His Grace.

To use that wisdom for the Glory of God and the good of all people.

Jesus said: *“My grace is sufficient for you,*

*For My strength is made perfect in weakness”*

**2 Corinthians 12:9**
